APPENDIX C
MULTIPLE SOURCE DRUGS WITH HCFA UPPER LIMITS

The Health Care Financing Administration (HCFA) continually revises the maximum allowed drug cost payments for multiple source drugs. A list identifying the multiple source drugs by generic name and the commonly known brand name products with the revised HCFA Upper Limits is available upon request by calling the Medicaid "HELPLINE". The revisions and additions are identified for pharmacy providers in attachments to the monthly report listing HCFA Upper Limits and Virginia/MAC Costs.
